

Highlights:

- The estimated population of Yukon on March 31, 2020 was 42,152; an increase of 1,190, or 2.9%, compared to the figure for March 31, 2019 (40,962).
- Comparing March 31, 2020 to March 31, 2010, Yukon's population increased by 7,363, or 21.2%. The population of the Whitehorse area increased by 6,457, or 24.2%; Dawson City increased by 402, or 21.2%; and Watson Lake decreased by 62, or 3.9%.

Notes on methodological changes: Prior to 2012, the Yukon Bureau of Statistics (YBS) produced population figures twice a year. Effective 2012, figures are produced quarterly.

Official population counts prior to June 2010 were based on information in Yukon Health Care Insurance Plan (YHCIP) files and a semi-annual health care update survey that estimated the number of plan members who were no longer Yukon residents. In 2010, the estimation model was revised and the population counts for June 2010 through December 2014 were derived by tracking changes in YHCIP files and other administrative data files. In 2015, the model was further revised to make the approach more comprehensive and to improve accuracy based on information in all available and applicable administrative data files of the Yukon government. In addition, the total population count of April 2011 was calibrated to a census-based estimate adjusted for net undercoverage.

The new model assigns residents of unorganized areas to their nearest communities. Estimates for Whitehorse now include population in surrounding areas as well as in Marsh Lake to remain comparable with the geographical area defined by Statistics Canada as the Whitehorse Census Agglomeration.

All monthly estimates are as of the last day of the month. The June estimates represent annual figures.

Due to the change in methodology in 2015, figures presented in this publication for the period from April 2011 onwards are not strictly comparable to figures prior to that period.

Monthly Population, March 31, 2000 to March 31, 2020

- From 2004 through 2014, Yukon's population increased almost steadily in most quarters of every year except in 2013. From 2015 onwards, the upward trend in population growth gained momentum with very high growth rates recorded in many quarters, most of them being in 2016 and 2017. The March 31, 2020 population at 42,152 is the new record-high¹ for Yukon.
- On March 31, 2020, Yukon's population (42,152), increased by 391 people, or 0.9%, from the figure for December 31, 2019 (41,761), and increased by 1,190 people, or 2.9%, from March 31, 2019 (40,962).

¹ Accurate population counts during the Gold Rush are not available. However, the population figure in the first Census for Yukon (1901), was 27,219.

Population by Subdivision in Whitehorse Area

Note: Residents of Whitehorse area are assigned to subdivisions based on their addresses in various administrative files. Some addresses in these files appear inconsistent or incomplete. Efforts have been made to resolve any apparent inconsistency or incompleteness of information by validating the information against multiple sources. Changes in subdivision populations from one time period to another are not only due to natural population change and migrations, but may also be due to reassignments of previously inaccurate addresses on file.
