

# RENEWABLE RESOURCES BULLETIN

Vol. 4

A publication of the Yukon Department of Renewable Resources

No. 1

## Index to Volumes 1, 2 and 3

This is the 46th issue of the Renewable Resources Bulletin. Since July, 1983 they have been published regularly on a three-week basis, with 15 issues per annual volume. They are free and are available in the Yukon at all Fish and Wildlife Branch Offices, at Community and Branch Libraries, at the Inquiry Centre in the Yukon Government Administration Building in Whitehorse and at all government agents/vendors in outlying communities. The bulletins are also distributed through a mailing list to Yukon schools and to organizations or individuals.

Limited copies of back issues are available by writing

to the department. Persons wishing to receive the bulletins, but who are unable to pick them up from the listed Yukon outlets, may have their name added to the mailing list by writing to: Yukon Renewable Resources, Box 2703, Whitehorse, Yukon Y1A 2C6.

### Index

To assist our readers in locating specific resource topics, an index for July 1983 to March 1986 has been prepared. Future issues of the bulletin will contain updated information on many of these previous topics.
